OBJECTIVE:

Driven and adaptable Mobile Application Developer with a strong foundation in UI/UX design and expertise in Android app development. Seeking to leverage my skills in creating visually appealing and user-friendly interfaces, coupled with a solid understanding of backend integration and security principles, to contribute effectively to the success and innovation of a dynamic organization.

HIGHLIGHTS OF QUALIFICATIONS:

- **Exceptional UI/UX Design Skills:** Proficient in creating visually appealing and user-friendly interfaces that seamlessly integrate with backend functionality.
- **Effective Communication and Collaboration:** Possess strong interpersonal and communication skills, with the ability to work effectively in team environments and contribute to collaborative projects.
- **Expertise in Android App Development:** Skilled in building efficient, scalable, and high-performance mobile applications using Android SDK, with a strong understanding of Java, Kotlin, and other relevant technologies.
- **Continuous Learning and Improvement:** Eager to learn from others, adapt to new technologies, and stay up-to-date with industry trends, ensuring continuous growth and improvement in skills and knowledge.
- **Web Development Fundamentals:** Proficient in designing and managing basic web pages using HTML, CSS, and JavaScript, with a solid understanding of front-end development principles.
- **Agile and Adaptable:** Quick to learn and adapt to new technologies, frameworks, and tools, with a strong ability to pivot when necessary to meet project requirements.
- **Certified in Flutter Development:** Possess certifications in Flutter, demonstrating expertise in building cross-platform mobile applications with a single codebase.
- **Strong Problem-Solving Skills:** Adept at analyzing problems, identifying solutions, and implementing effective fixes, with a strong attention to detail and commitment to delivering high-quality results.

TECHNICAL SKILLS:

Programming Skills: FrontEnd Development, Java, Kotlin, Flutter, Swift

FrameWorks: Flutter SDK, Android SDK, iOS SDK

Tools: VS Code, Android Studio, IntelliJ, Figma, Xcode

Database: Firebase, MongoDB, Oracle

EDUCATION:

Mobile Application Development and Strategy, Graduate Certificate
George Brown College, Toronto, ON

Jan 2024 - Dec 2024

- Creating meaningful design artifacts using modern software engineering methodologies and project management principles.
- Develop secure mobile applications by implementing the security principles, standards and best practices of mobile application development.
- Work independently and as a team member to develop mobile application solutions for a business.
- Design user-friendly, fast, and reliable mobile applications following UI/UX principles.
- Learn various strategies for developing competitive mobile applications.

Information and Communication Technology, Bachelor's
Uka Tarsadia University, Bardoli, Gujarat, India

Aug 2019 - May 2023

- Understand industry-standard testing methodologies to ensure software quality and performance improvement.
- Develop solution architectures for platform-specific applications, applying enterprise architecture principles and best practices.
- Apply various strategies to develop and implement real world applications.
